	Appendix A: Assumptions underlying actuarial factors	16
	Appendix B: Factor Tables	17

1 Introduction

- 1.1 This note is provided for the Ministry of Defence (MoD) as scheme manager of the Armed Forces pension arrangements and sets out factors and guidance on Added Pension (AP) calculations for eligible members of the Armed Forces Pension Scheme 2015 (AFPS15) in accordance with scheme regulations.
- 1.2 This guidance supersedes any guidance previously issued for the purpose of added pension calculations.
- 1.3 The factors were prepared in light of our general factors advice to MoD dated 28 February 2018 and 30 October 2018 and its instructions following that advice.
- 1.4 The spreadsheet sent to MoD on 15 January 2019 contains the relevant factors for use in added pension calculations for members in AFPS15. The tables for use in added pension calculations are table 1301 to 1316.
- 1.5 These factors are “MoD-Controlled” factors and so it is MoD’s decision whether to update these factors after considering GAD’s recommendation. MoD has informed GAD that these factors came into force with effect from 1 April 2019.
- 1.6 Appendix A in this guidance sets out the assumptions used in the determination of factors.

Implementation and Review

- 1.7 This guidance has been written for pension administrators and assumes some knowledge of general pension terminology, and some familiarity with retirement calculations for the Armed Forces Pension Schemes. Any questions concerning the application of the guidance should, in the first instance, be referred to MoD.
- 1.8 In line with best practice and in order to make sure that factors are being used as intended and the instructions are fit for purpose, we suggest that some example calculations are sent to GAD for review.
- 1.9 The factors contained in this guidance will be subject to review periodically. This will depend on external circumstances, for example whenever there is a change in the SCAPE basis; when changes in the actuarial assumptions adopted for other scheme factors take place; or following each future actuarial valuation where mortality and other relevant experience is reviewed or if other credible and material information comes to light.

2 Added Pension

Background

- 2.1 Active members of AFPS15 (including Reservists) who have begun qualifying service are able to elect to pay personal contributions in order to purchase AP. They are able to choose AP that either affects only their benefits, known as “AP (member)” or that affects both the member and their dependants’ i.e. spouse/civil partner/other adult dependant and any eligible children, known as “AP (Member and Dependants)”.

Armed Forces Pension Scheme Regulations

- 2.2 Rules 91 to 96 of the Armed Forces Pension Regulations 2014 (which came into force on 1 April 2015) sets out the eligibility criteria and operation of Added Pension AVCs.
- 2.3 In particular, rules 91(5)(a), 91(5)(b), 92(6) and 92(7) specify that *“the amount that the member is entitled to count as added pension (both member only and member and dependants) for the relevant scheme year is such amount as is indicated as appropriate for the amount of the contribution(s) in tables issued by the scheme manager, after consultation with the scheme actuary.”*
- 2.4 The factors have been determined in terms of actuarial equivalence to the benefits paid on retirement at age 60, on assumptions consistent with those used to set employer contributions to the scheme under the SCAPE methodology.

Payment Choices

- 2.5 To purchase either form of AP, members can choose to pay either an immediate lump sum or fixed monthly payments over the current scheme year; lump sums can be paid by cheque or from salary whereas monthly payments must be paid from salary.
- 2.6 Only one contract can be taken out per scheme year. Monthly payments stop automatically at the end of the scheme year, after which a new contract is needed to continue to purchase further AP. If a member stops fixed monthly payments, they will have to wait until the next scheme year in order to start paying again.
- 2.7 Where a member wishes to begin paying fixed monthly payments part way through a scheme year, they may pay them only for the remainder of that scheme year in respect of that contract; a new contract would need to be taken out in subsequent scheme years to purchase further AP.
- 2.8 A member may stop fixed monthly payments before the end of the scheme year and will subsequently receive a proportionate amount of the AP that would have been purchased from having paid the full contributions (i.e. $\text{AP from full contributions} \times \frac{\text{number of monthly premiums actually paid}}{\text{number of monthly premiums in full contribution period}}$). Note that the full contribution period in this case is not necessarily 12 months, it is the number of months from election to the end of the scheme year.

- 2.9 The cost of purchasing the AP in any scheme year is determined by the factors produced by GAD for the scheme year in which personal contributions are paid – see Appendix B for the revised factor tables. Note that these tables are unisex and are based on Deferred Pension Age (“DPA”) which equals the individual’s State Pension Age (“SPA”); age of joining the Armed Forces and age of purchase.
- 2.10 The factors are dependent on DPA due to an allowance for the possibility of the AP being paid alongside Early Departure Payments (“EDP”) or the deferred pension (both of which are related to the DPA). The DPA (= SPA) to use when locating the appropriate factor is that given by stated Government Policy at the time of purchase rather than the SPA specified in legislation.
- 2.11 A member may choose either the amount of AP they wish to receive, or the amount of personal contributions they wish to pay (subject to the limits described in paragraphs 2.14 to 2.16); the factors can then be used to calculate either the required personal contributions in the former case or the AP that will be obtained in the latter case.
- 2.12 Where a member leaves service before the two year vesting point they receive a refund of their personal contributions less any relevant tax charges.
- 2.13 Where a member has elected to pay monthly contributions and in a subsequent month of the same scheme year opted for flexible service or has insufficient salary income to meet those contributions (e.g. due to a period of unpaid leave), the member has three options:
- Opt for contributions to cease for the remainder of the contract and so receive a proportionate amount of the elected AP as per paragraph 2.8.
 - Opt for contributions to be paid at the same rate as if the member were receiving their normal rate of earnings, in order that the elected AP is purchased.
 - Opt for contributions to be delayed and be paid during the scheme year after the absence has ended. This may require an adjustment to the premium. Such cases should therefore be discussed with GAD.

Limits

- 2.14 The amount of AP that a member can purchase over their career in public service is subject to a cap set by HM Treasury. This cap was set at £6,500 from 1 April 2015 and rises in line with the rate that Added Pension itself is uprated, currently the Consumer Prices Index (“CPI”) – i.e. the proportion of the cap that a member has used up will not change over time unless further AP is purchased.
- 2.15 The contribution towards the cap is calculated when each AP contract is taken out and will not be reviewed as the member’s situation or career changes.

- 2.16 The minimum personal contributions that can be made per scheme year are either £300 immediate lump sum or £25 fixed monthly payments and are subject to ongoing review. Note that the minimum £25 fixed monthly payment only applies over a full scheme year; where members start monthly payments part way through the year the minimum is calculated as:

$$£25 \times 12 / N$$

where N is the number of monthly payments to be made during the remainder of the scheme year.

Benefits Received

- 2.17 The AP is payable on retirement at Normal Pension Age 60 ("NPA 60") alongside the main pension or on Tier 2/3/serious ill-health retirement at any time. AP paid early on Tier 2/3/serious ill-health retirement is not reduced and does not affect any ill-health enhancements.
- 2.18 Additionally, if on ill-health retirement, the member was only part-way through a scheme year in which they had elected monthly contributions (and had not already elected to cease those monthly contributions), it is assumed that the monthly contributions in the remainder of the scheme year had also been paid.
- 2.19 For a member who has elected AP (Member and Dependants), the AP also increases associated dependants' benefits (i.e. pensions and lump sums paid to a spouse/civil partner/other adult dependant and any eligible children on the member's death before or after retirement). Additionally, if, at the time of death, the member was only part-way through a scheme year in which they had elected monthly contributions (and had not already elected to cease those monthly contributions), it is assumed that the monthly contributions in the remainder of the scheme year had also been paid. Guarantee payments on death in retirement after less than 5 years in receipt (i.e. paying the balance of five years of pension), allow for either form of AP.
- 2.20 Where an active member elects to purchase AP beyond NPA 60, paragraph 2.17 applies except that the AP is paid at the point they eventually leave service (rather than at NPA 60). A late payment adjustment is applied as discussed in paragraph 2.30 below.
- 2.21 The amount of AP purchased in a scheme year increases in line with CPI in each subsequent scheme year until the AP comes into payment. AP purchased in different scheme years can be combined into a single AP 'pot' (once all past CPI increases have been applied) so as to reduce the administration required.
- 2.22 If a member has paid for AP and leaves service (including retiring on Tier 1 ill-health) with EDP and/or a deferred pension – then the AP is converted to match the nature and timing of the benefits to be received. Paragraphs 2.24 to 2.29 look at these two scenarios in more detail.

- 2.23 The DPA (= SPA) to use for benefit payments is that given by stated Government Policy at the time of retirement rather than the SPA specified in legislation. This may be different to the DPA at time of purchase. No adjustment is made for any change in DPA.

Adjustment for Early Leavers

- 2.24 As discussed in paragraph 2.22, the AP is converted to match the nature and timing of the benefits to be received.
- 2.25 The Added Pension purchased is assumed to be paid at NPA 60 (even for members who elect AP beyond NPA 60). If a member leaves before NPA 60 then the Added Pension is paid at DPA (= SPA) and this amount automatically feeds through to produce added EDP benefits where entitlement to such benefits has been obtained.
- 2.26 Where a member leaves service with entitlement to EDP benefits and a deferred pension, we expect that they will typically receive comparable or better value overall for their AP contract than if they had left service at NPA 60. However, where a member leaves service with only entitlement to a deferred pension, unless the amount of AP is adjusted, we expect they would receive a lower overall value from their AP contract than if they had retired at NPA 60.
- 2.27 As a result of paragraph 2.26, where a member leaves with only entitlement to a deferred pension, an adjustment is made at the point of payment to the amount of AP. Such adjustments are calculated using late retirement factors provided by GAD and are cost neutral (i.e. the adjustment to the AP for such members is not expected to result in any more expense to the scheme overall than if the members had retired at NPA 60). The adjustment needed is based on payment being delayed from NPA 60 to the member's DPA (= SPA). This adjustment is determined by using the AFPS 15 general early/late retirement factor table in force at the point of payment. To calculate the adjustment, divide the factor given at the member's DPA by the factor given at age 60.
- 2.28 After leaving service, the AP continues to be uprated by CPI until DPA (=SPA) where it is adjusted as described in paragraph 2.27 and then comes into payment. However, any subsequent dependant's benefits (from having purchased the Member and Dependants AP) should be based on the unadjusted AP. As such, for these cases it is necessary to keep a record of the adjustment factor that was applied to the AP so that it can be unapplied when calculating the spouse's entitlement (i.e. the spouse's AP entitlement will be 62.5% of the member's AP divided by the adjustment factor which was applied at DPA). Alternatively a record of the initial unadjusted AP can be kept.
- 2.29 For members who have purchased AP and subsequently leave with entitlement to both EDP benefits and a deferred pension, the AP will increase the EDP income and lump sum. There is no adjustment to the AP paid alongside the deferred pension as per paragraph 2.27; however, as per paragraph 2.28, it will continue to be uprated by CPI between leaving service and the DPA. At the DPA, the EDP income will cease and the deferred AP will come into payment.

Adjustment for Late Leavers

- 2.30 Where a member was entitled to draw their Added Pension at NPA 60 but chooses to delay receipt (including the cases where the member purchased Added Pension after age 60), a late retirement uplift should be applied at the point of the Added Pension coming into payment. As above, the AFPS 15 general early/late retirement factor table in force at the point of leaving service should be used. To calculate the adjustment, divide the factor given at the member's age of the Added Pension coming into payment by the factor given at age 60.

Options

- 2.31 Any commutation options chosen for the benefits alongside which the AP is eventually paid also apply to the AP (i.e. if AP is converted into EDP benefits then any inverse commutation chosen also applies to the AP element of the EDP lump sum; where AP is paid at NPA 60 or DPA (= SPA) the percentage commuted will be the same as that chosen for the regular pension). Such options are subject to the relevant scheme rules (e.g. inverse commutation of the EDP lump sum is only possible if the full amount of lump sum is commuted) and subject to the relevant HMRC limits.
- 2.32 Where a member chooses early or late payment of their AFPS 15 benefits, any AP that is to be paid alongside these benefits is also brought forward or delayed accordingly. The general early and late retirement factors are used to adjust the amount of AP to be paid.
- 2.33 AP (Member) cannot be used in the Allocation option; however, subject to the same rules and limits as regular pension, AP (Member and Dependents) can be allocated. However:
- pension cannot be allocated if the member has retired on Tier 2/3/serious ill-health; and
 - the maximum permitted percentage of pension that can be allocated must ensure that the dependant's pension does not exceed the member's pension on death after age 75 and it cannot be greater than 37.5%.

AP Payment Mechanics

- 2.34 Where the AP is converted into an addition to the EDP benefits, these payments are made under the EDP scheme; in all other cases the AP payments are made under the AFPS 15. We understand that this is consistent with arrangements for added years under AFPS 05.

Tax Implications

- 2.35 Members receive tax relief on their personal contributions to purchase AP. The additional benefits eventually received are subject to the same tax treatment as the matching benefits with which they are paid. Managing the impact of AP on the member's position in relation to the Annual Allowance and Lifetime Allowance is their own responsibility.

Summary

- 2.36 The table below gives a summary of the possible forms of AP payable under various circumstances of leaving service.

Leaving point and benefit entitlement	Form of added pension	Adjustment factors required	Commutation Option for AP
Early leaving without EDP (including retiring on Tier 1 ill-health)	Additional deferred pension from DPA (= SPA)	Yes – see paragraph 2.27	Pension into lump sum
Early leaving with EDP (including retiring on Tier 1 ill-health)	Additional deferred pension from DPA (= SPA) and additional EDP benefits	No	EDP lump sum into EDP pension and deferred pension into lump sum
Early leaving with ill-health pension (i.e. Tier 2/3/serious)	Additional pension from point of retirement	No	Pension into lump sum
Retirement at NPA 60	Additional pension from NPA 60	No	Pension into lump sum
Retirement beyond NPA 60	Additional pension from the point of leaving service	Yes – see paragraph 2.30	Pension into lump sum

3 Using the factors

3.1 The factors in Appendix B are unisex factors.

3.2 There are four tables for each DPA:

- Member only Single Premium
- Member and Dependants Single Premium
- Member only Monthly Premium
- Member and Dependants Monthly Premium

3.3 Ages are expressed as age last birthday.

3.4 To find the premium to purchase £X of Added Pension, the following formula should be used:

$$\text{£X} \div 100 \times \text{factor}$$

3.5 Where a member wishes to purchase added pension via monthly payments part-way through a scheme year, they may only do so for the remainder of the scheme year; a new contract would need to be taken out in subsequent scheme years to purchase further Added Pension. In this instance, the required premium to purchase £X of Added Pension can be found by following the steps in 3.4 and then multiplying by 12 and dividing by the number of monthly payments available to be made during the remainder of the scheme year (e.g. multiply by 12 and divide by 6 if election is effective half-way through the scheme year.)

3.6 To find the Added Pension purchased by £P of premium, the following formula should be used:

$$\text{£P} \div \text{factor} \times 100$$

3.7 Similarly to above, the Added Pension purchased by £P of monthly premiums that being part-way through a scheme year is calculated by following the steps in 3.6 and then dividing by 12 and multiplying by the number of monthly payments available to be made during the remainder of the scheme year (e.g. divide by 12 and multiply by 6 if election is effective half-way through the scheme year).

3.8 Note that the relevant factor for a member will change each scheme year (regardless of whether an update to the factors has occurred) if their “age of purchase” has changed (i.e. they will move down the relevant column in the relevant table in Appendix B).

Interpolation for non-integer DPA

- 3.9 For a member with a non-integer DPA of Y years and M complete months, who requires the use of a factor at age N, interpolation between two DPA tables will be necessary. The formula to use is as follows:

$$\begin{aligned} \text{Factor (age N, DPA(Y, M))} &= M/12 \times \text{Factor (age N, DPA(Y+1))} \\ &+ (12-M)/12 \times \text{Factor (age N, DPA(Y))} \end{aligned}$$

3.10 Example 1 – interpolation of non-integer DPA

Deferred Pension Age	66 years 5 months
Member Age last birthday at election	58
Member Age at joining	38
Form of AP	Member and dependant
Payment	Single Premium
Factor table NPA 66	Table 1307
Factor table NPA 67	Table 1311
Factor (58, 66 y 5m) = 5/12 x Factor (58, 67) + 7/12 x Factor (58, 66)	
Factor (58, 66 y 5m) = 5/12 x £2,139 + 7/12 x £2,154 = £2,147.75	

3.11 Example 2 – Purchase of member only AP by Single Premium

Member details

Date of birth	30 May 1976
Deferred Pension Age	67
Date of joining service	1 April 2015 (age 38)

AP election

Date payment received	1 Aug 2020
Scheme year	2020-21

Form of AP	AP Member
Lump sum payment	£10,000

AP Credit

Relevant table	Table 1309
Member's age last birthday at election	44
Factor for determining AP Credit (F)	1387

Using the formula from paragraph 3.6, the amount of AP to be credited to a member's pension account can be calculated as follows,

$$AP\ Credit = EP \div factor \times 100$$

$$AP\ Credit = \frac{£10,000}{1387} \times 100 = £720.98$$

At the date that the payment is received, the member's pension account should be credited with £720.98 pa of member only AP for the 2020-21 scheme year. This pension is increased in line with CPI each year until the AP comes into payment.

3.12 Example 3 – Purchase of member and dependant AP by Monthly Premium

Member details

Date of birth	30 May 1983
Deferred Pension Age	68
Date of joining service	1 April 2015 (age 31)

AP election

Date payment commences	1 April 2021
Scheme year	2021-22
Form of AP	AP Member and dependant
AP to be purchased	£1,000

AP Credit

Relevant table	Table 1316
Member's age last birthday at start of scheme year	37
Factor for determining AP Credit (F)	119

Using the formula from paragraph 3.4, the amount of premium to be deducted to purchase £1,000 of added pension can be calculated as follows,

$$AP\ Premium = £X \div 100 \times factor$$

$$AP\ Monthly\ Premium = \frac{£1,000}{100} \times 119 = £1,190\ per\ month$$

Provided that the member has paid all of the required contributions in order to secure the AP, a £1,000 AP is added to the member's account at the end of the 2021-22 scheme year. This pension is increased in line with CPI each year until the AP comes into payment.

3.13 Example 3a – Purchase of member and dependant AP by Monthly Premium (part-year)

If the member in example 2 only starts contributing in May 2021 so that only 11 months of contributions will be made in the scheme year, then the premium will be adjusted as described in paragraph 3.5:

Full year premium	£1,190 per month
Number of months of contributions	11

$$AP\ Monthly\ Premium = £1,190 \times 12/11 = £1,298.18\ per\ month$$

3.14 Example 4 – AP purchased by a member who leaves part way through the scheme year

Member details

Date of birth	30 May 1983
Deferred Pension Age	68
Date of joining service	1 April 2015 (age 31)
Date of leaving service	31 October 2021

AP election

Date payment commences	1 April 2021
Scheme year	2021-22
Form of AP	AP Member and dependant
AP to be purchased	£1,000
Monthly premium (from example 2 above)	£1,190

AP Credit

Relevant table	Table 1316
Member's age last birthday at start of scheme year	37
Factor for determining AP Credit (F)	119

Where a member ceases monthly contributions before the end of a scheme year, they will subsequently receive a proportionate amount of the AP that would have been purchased from having paid the full contributions. Using the formula in paragraph 2.8:

$$\frac{\text{AP from full contributions} \times \text{number of monthly premiums paid}}{\text{Number of monthly premiums in expected contribution period}}$$

AP from full contributions = £1000

Number of premiums paid during the period 1 April to 31 October = 7

Number of monthly premiums in expected contribution period = 12

The proportioned AP credit granted to this member would be as follows:

$$\frac{£1000 \times 7}{12} = £583.33$$

The revised AP credit should be added to the member's pension account at the end of the 2021-22 scheme year. This pension is increased in line with CPI each year until the AP comes into payment.

4 Exclusions and limitations

- 4.1 This guidance should not be used for any purpose other than those set out in this guidance.
- 4.2 The factors contained in this guidance are subject to regular review. Scheme managers and administrators need to ensure that they are using the latest factors, as relevant, when processing cases.
- 4.3 Advice provided by GAD must be taken in context and is intended to be considered in its entirety. Individual sections, if considered in isolation, may be misleading, and conclusions reached by a review of some sections on their own may be incorrect. GAD does not accept responsibility for advice that is altered or used selectively. Clarification should be sought if there is any doubt about the intention or scope of advice provided by GAD.
- 4.4 This guidance only covers the actuarial principles around the calculation and application of added pension factors. Any legal advice in this area should be sought from an appropriately qualified person or source.
- 4.5 Scheme managers and administrators should satisfy themselves that added pension calculations and benefit awards comply with all legislative requirements including, but not limited to, tax and contracting-out requirements.
- 4.6 This guidance is based on the Regulations in force at the time of writing. It is possible that future changes to the Regulations might create inconsistencies between this guidance and the Regulations. If users of this guidance believe there to be any such inconsistencies, they should bring this to the attention of MoD and GAD. Under no circumstances should this guidance take precedence over the Regulations. Administrators should ensure that they comply with all relevant Regulations.

Third party reliance

- 4.7 This guidance has been prepared for the use of MoD and the scheme administrators for the purposes of demonstrating the application of the factors covered by this guidance only. This guidance may be published on MoD and the scheme administrator's website but must not otherwise be reproduced, distributed or communicated in whole or in part to any other person without GAD's prior written permission.
- 4.8 Other than MoD and the scheme administrators, no person or third party is entitled to place any reliance on the contents of this guidance, except to any extent explicitly stated herein. GAD has no liability to any person or third party for any action taken or for any failure to act, either in whole or in part, on the basis of this guidance, whether or not GAD has agreed to the disclosure of its advice to the third party.

Appendix A: Assumptions underlying actuarial factors

Financial assumptions

Nominal discount rate	4.448%
Real discount rate (in excess of CPI)	2.40%

Mortality assumptions

Base mortality tables: normal health	S2PMA and S2PFA
Base mortality tables: ill health	S2PMA and S2PFA
Base table adjustment	110% of Standard Tables
Future mortality improvement	Based on ONS principal UK population projections 2016
Year of use	2020

Other assumptions

In-service decrements	As per 2016 valuation
Proportion of male members for the purpose of unisexing factors	90%
Age difference between member and partner	Male members assumed to be 3 years older than partner. Female members assumed to be 3 years younger than partner.
Proportions married / partnered	Members who opt for member and dependant's pension are assumed to be married or have a civil partner at retirement.
Deferred Pension Age in the 2015 scheme	In accordance with HMT guidance
Officer / Other rank proportion	50% OF / 50% OR
Allowance for commutation	Nil

Appendix B: Factor Tables

Table 1301 (Part 1): Added Pension – Single Premium, Unisex, Member only, DPA/SPA 65

Single premium to purchase £100 of AP at date of election, £ (assumed to be payable from age 60 - If election occurs beyond age 60, entitlement to the AP will be assumed to have begun at age 60)																					
Age of joining	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36
